

## ALLEGHENY COUNTY BAR ASSOCIATION

*Serving the Pittsburgh Legal Community*

### FORENSICS

Forensics costs are necessary to know what information was lost, stolen or breached.

## KNOW THE COSTS

You most likely aren't covered under your current program for **Cyber Liability**. There are going to be costs associated with a data breach before anyone even makes the first claim against you. It is important that you know them.

### NOTIFICATIONS

You are required to notify your clients and employees of a breach. This comes with a cost.

### MONITORING

Monitoring costs arise for those people whose information was breached.

### PATCHING

Don't forget about the costs associated with patching the problem.

Contact USI Affinity today for information on covering your firm with our Cyber Liability policy.
